Auto Loan Rates Start at 3.25%APR

Do you have a lease coming due in the next couple of months? NOW is the time to take action! The auto market is crazy and the vehicles are being sold for much more than their value.

“The generous incentives leasing companies used to give to bring down the price of leases have been disappearing as auto inventories have dwindled. Purchase prices are set at the beginning of a lease term, meaning the cars whose leases are coming up for expiration now are selling at pre-pandemic prices, offering the rare opportunity to profit from an auto lease.” – Yahoo Money
